

Data Loss Warning Form

The following information applies to your business,

You should be aware that some processes carried out during the repair of any computer device may result in the corruption, partial or total loss of data stored on fixed drives in the machine.

ASI Solutions takes all care to ensure that no data is adversely affected; however ASI Solutions is not responsible for the loss and or damage to any data stored on the system.

It is sound IT management practice to regularly back up fixed drives to a separate and/or external device such as a tape, CD/DVD. ASI Solutions assumes that this practice has been followed and that the data stored on all fixed drives has been backed up and can be recovered from the external storage media. ASI Solutions therefore accepts no responsibility for data that is lost and cannot be recovered. Nor is ASI Solutions responsible for restoring any data from external media.

By completing the following you acknowledge that you have read and accept the statement in this form:

Job Number: _____

Name: _____ Signature: _____

Date: _____
