BUILD DIGITAL CAPABILITIES WITH DIGITAL SKILLS COACH

 **Windows 11**

Is a lack of digital literacy holding your business back?

Without guidance and motivation, employees fall back to old ways, leading to:

- Slower work because digital tools aren't used to their full potential
- Falling behind competitors because innovation isn't happening fast enough
- Wasting money on training that doesn't stick, without seeing real benefits
- Missing out on better ways to solve problems and think creatively, which comes from continual learning.

What is the Digital Skills Coach?

Our program offers practical and interactive learning experiences to improve digital tool use—including Windows devices and Microsoft 365—and promote a culture of digital expertise and ongoing growth. We use a three-pointed approach to see lasting change through live delivery, practical application, and a curated platform of content.

✓ **Tailored training**
Programs tailored to your team's abilities and goals.

✓ **Progress monitoring**
Easy-to-follow metrics to see skill growth in real time.

✓ **Ongoing support**
Keep your team ahead of the digital curve.

Digital Skills Coach equips your team with practical and modern training

Designed for immediate application in your day-to-day workflows. This approach gives you:

Enhanced collaboration and innovation

Empowering employees with digital skills improves teamwork with more collaborative applications and encourages innovative approaches to problem-solving.

Sustained digital transformation

Continuous learning ensures that your employees' digital skills expand in tandem with technology shifts to support more agile ways of working.

Increased employee engagement

Interactive, hands-on training sessions, paired with access to on-demand coaching content, increase employee engagement with learning.

Why choose Digital Skills Coach?

Our experienced coaches are here to equip your team, no matter the size or sector, with modern ways of working through programs that are constantly reviewed and designed for immediate application in your daily workflows. With a unique approach to simplifying complex digital concepts, combined with proven adult learning strategies, we can maximise the investment in your technology.
