

DATA
AND AI

ANABELLE

UNLOCK THE POWER OF AI WITH ANABELLE'S SUITE OF DIGITAL ASSISTANTS FOR TEACHERS, STUDENTS & EXECUTIVES

Many schools are struggling to balance teaching demands with student wellbeing and administrative tasks

- Teachers face growing "Admin" duties that demand more of their time
 - Staff shortages require teachers to cover subjects with which they are unfamiliar
 - Students need more personal teacher support to cater for growing range of learning & behavioural needs
- Parents want more progress feedback and personal engagement
- Executives want more real-time data to support decision making, reporting and forecasting

What is Anabelle?

Anabelle is a suite of AI-powered digital assistants designed to meet the needs of Australian schools by supporting its teachers, students, and executives.

Teacher
bot

Executive
bot

Student
bot

- ✓ **Teacher Bot** reduces workload by automating lesson planning, assessments, reports, and administrative tasks
- ✓ **Student bot** provides personalised, on-demand 24/7 assistance through tailored learning plans and structured formative feedback.
- ✓ **Executive Bot** provides real-time insights and detailed reports on student and overall school performance

Transformative features for educators

Anabelle streamlines the teaching process by offering:

Reduce admin overhead

automates lesson planning, aligning with local curriculum, so teachers can focus more on teaching and less on preparation.

Personalised student feedback

delivers feedback on student performance and recommended learning enhancements.

Increased parent reporting

regularly updates teachers and prepare reports for parents with student progress and feedback, fostering better involvement.

Why choose Anabelle?

Anabelle isn't just an AI tool; it's a transformative solution designed for Australian schools. Built within your IT environment, Anabelle ensures unmatched safety and security. Its user-friendly interface with pre-prompted requests combined with its data integration capabilities, allows staff and students to get accurate responses. With Anabelle, you can empower your school with secure, easy-to-use and data-rich AI support, freeing up valuable time for teachers to focus on student engagement
